Forecast for Saturday 04 Jun 2022

Weather: A damp start as rain or showers sweep across the park in the morning, which could be heavy and thundery at times. The showers easing through the afternoon to allow for some drier and increasingly bright periods. Staying largely dry into the evening with some clear spells.

Chance of cloud-free hill tops above 600m: 60% until mid-morning, becoming >90%.

Low cloud and visibility: Broken cloud above 400-600 metres likely across eastern hills at first, lifting and breaking through the morning. Very poor visibility in the heavy showers of the morning, with cloud occasionally falling to 600m. Generally very good visibility from the afternoon with cloud above the hills.

Meteorologist's View

Be prepared to quickly change routes should thunderstorms develop through the morning.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Sat 04 Jun 2022	0mm	0.2mm	0.2mm

Forecast for Sunday 05 Jun 2022

Weather: Cloud soon covering the park as a band of rain and showers arrives in the early morning. The precipitation could be heavy and perhaps with some thunder. A drier but still cloudy interval around late morning before a second pulse of rain arrives for the afternoon and evening.

Maximum wind: 20mph easterly winds on the summits, easing to 10mph for the evening.

Chance of cloud-free hill tops 600m: 30% for much of the day.

Low cloud and visibility: Cloud quickly lowering to 500m in the morning, shrouding many higher routes. Visibility becoming very poor in any heavy rain and showers that pass over through the morning and then again in association with the second band of rain.

Temperature: **Valleys:** Plus 9 Celsius, rising to plus 16 Celsius.
At 600m: Plus 5 Celsius, rising to plus 8 Celsius.
Freezing level: Above the summits.
